Chivalry (Drawer-board). No. 750.

WHAT EXPERTS SAY OF CHIVALRY.

Mr. H. Pillsbury, the famous Chess champion, writes:—
 "I consider Chivalry a remarkably interesting and amusing game of skill for young or old."

F. W. Berry, Esq., one of the most prominent Chess players of Massachusetts, writes:—

"It is more easily learned than Chess, since it is *not so complex*. The possible combinations are entirely different from those of Chess, but are *equally profound and pleasing*."

Mr. H. Davidson, the well-known checker player, writes:—
 "I have no hesitancy in saying that I think Chivalry superior to Checkers."

In Chivalry each player has twenty pieces, his object being to force two of his men past the ranks of his opponent to the starred squares beyond. Players can "jump over opposing pieces, removing them from the board," "canter over friendly pieces, without removing them," or make a "plain move" one square at a time. Each player has eight knights that have a special advantage of combining two moves in one.
