

THE LATEST CRAZE!

PARKER'S Pastime Picture Puzzles

The CRAZE for our PASTIME PUZZLES started in Boston and Newport, and they have now become the fashionable amusement in society in all the larger towns of the United States.

PASTIME PUZZLES are *far superior* to the numerous imitations which have sprung up since our Pastimes became a fad,—for the following reasons:—

1. Parker's Pastime Picture Puzzles are made of *beautiful* pictures selected from the most richly colored art reproductions of famous paintings.
2. Pastimes are perfectly and accurately mounted with special cement on especially selected stock.
3. *All Pastimes* are cut individually with *very fine* imported saws on *especially made machines*. Such fine saws could not be used on ordinary "Jig" saws or "band" saws.
4. Pastime Puzzles are made under our most careful supervision in our own factory, which has the largest and *most perfect plant* for making picture puzzles *in the world*.

Almost all other picture puzzles made are insecurely mounted with ordinary sticking material, and are sawed with "band saws" or ordinary "jig saws," which remove too much wood and make imperfect fitting.

Almost all other puzzles are sawed several at a time, which cannot be done so as to produce accurate, tight-fitting parts.

The above are the most important reasons why the genuine Pastime Puzzles are superior to all imitations. The quality will always be maintained.

Pastime Puzzles are sold to dealers in assorted series, each series usually containing from six to twelve styles. While we will endeavor to supply orders for specific pictures if so ordered, it must be understood that orders for specific pictures in many cases means a delay in shipment.

Our facilities for the production of Pastime Puzzles are very large. We will endeavor to ship all orders with great promptness.

PARKER'S
Pastime Puzzles

In from 150 to 400 pieces
